Add A Circuit

The Add A Circuit is designed to connect 12 volt powered accessories easily to vehicles fuse panel without cutting and splicing your vehicle's existing wiring.

1. **Disconnect the power wire from the vehicle's battery.**
2. **Strip the positive power wire of the device that you are installing, this is usually a red wire or a black wire with a white stripe to denote its polarity.**
3. **Insert the stripped positive power lead into the open end of the butt connector of the Add A Circuit.**
4. **Crimp the stripped positive power wire into the open end of the butt connector to secure and ensure its connection.**
5. **Locate a fuse in the panel / block, that does not exceed 10Amps, that you would like to obtain power from.**
 - a. **This may be a constant (un switched) or an ignition (switched) source depending on the fuse you choose. See Step #6 for more on this.**
 - b. **Choose a non-vital source to the vehicles operation; such as a radio, cigar lighter, or rear defroster. Others devices may also be available and acceptable, but may not be listed here.**
6. **Make sure the source that you select is consistent with the type of installation you want:**
 - a. **If you want the device to operate with the vehicle (on when on, off when off) then you need to select an ignition (switched) power source.**
 - b. **If you would like the device to operate independently of the ignition then you will need a constant power source (un-switched). NOTE: This type of installation will drain your battery if it is left unattended and the vehicle is not started to charge your battery. Remember the device will have power even when the vehicle is turned off.**
7. **Remove the original fuse from the fuse panel of the device you have chosen to bridge power form.**
8. **Plug the removed fuse into the open fuse socket of the Add A Circuit.**
9. **Replace the fuse removed from the original device by inserting the Add A Circuit into its spots in the fuse panel.**
10. **Reconnect the power wire for the battery.**

Limited Warranty and Disclaimer

All LEDGlow Lighting, LLC. products come with a one year limited warranty on the internal parts of the product. This warranty starts from the date of purchase. LEDGlow Lighting, LLC. will replace or repair any qualifying defective product received by the company before the end of the warranty period. Installation of this product must be performed by a licensed professional. Should the failure of the product be the result of damage occurring as a result of improper installation, alteration of the product or an act or omission on the part of the consumer, this warranty is void. LEDGlow Lighting, LLC. shall not be responsible for any consequential damages which arise from the use and/or installation of the product. If the kit is installed in any manner other than specified, LEDGlow Lighting, LLC. reserves the right to deny any warranty claims at the discretion of the technical support department. The one year warranty is not transferable and is valid for up to one year from the original date of purchase. Any product return must include the original packaging, a statement of the alleged defect and an RMA number must be provided. All RMA numbers are valid for 14 days from issued date. Upon receipt of the returned product, the company will test the product for defect. If the results of the testing do not support the warranty claim, do not reveal any defect or indicate consumer negligence in the installation and handling of the product, then the product will be returned to you and you will be charged a reshipping fee. If the product is returned from an address within the continental United States, within the first 14 days after purchase, and is found to be defective, LEDGlow Lighting, LLC. will cover the cost of the return shipping with an emailed return label. This offer is only valid for the continental US. All international shipping, customs fees and/or duty charges are solely the responsibility of the consumer.

Additional Disclaimer Terms

Lights are for off road use only; please check your local and state laws for the proper use of this product.
